CONCORD ENGINEERING & SURVEYING, INC. NOW OPERATES UNDER CESI

CONCORD, NC -- June 16, 2006 – Concord Engineering & Surveying officially began conducting business under the name CESI on February 20, 2006. The transition from Concord Engineering & Surveying, Inc. to CESI became essential as our services continue to grow and expansion of our professionally registered staff of land surveyors, engineers, and landscape architects encompasses the southeast region.

In conjunction with our firm now being referred to as CESI, we have updated our website www.concordengineering.com to reflect the new image CESI projects: a professional service firm offering surveying, civil engineering, construction materials testing, geotechnical engineering, landscape architecture, contract administration, environmental, and geographic information systems.
