To Whom It May Concern

REFERENCE: Letter of Recommendation

Dear Sir:

We have found Concord Engineering to be the best, high quality engineering firm in the Charlotte area. They have done the site plans and grading plans for hundreds of sq ft of industrial buildings and for two 40,000 sq ft office buildings. They have done several roads that were either given over to the state or the local municipality.

They epitomize the mantra of on time and under budget. They have our highest recommendation.

Sincerely:

Bob Rourke
Vice President
