

FOR IMMEDIATE RELEASE:

Two New Team Members Join CESI

CESI welcomes two new members to the team: Richard Modlin, PE (Transportation Director) and Jay Eaves, PE (Construction Materials Testing Project Manager).

Richard Modlin, PE has recently joined our firm as the transportation director. A graduate from NCSU, Mr. Modlin has over 20 years industry related experience. His specialities include traffic impact studies, roadway design, final design for culvert replacement, widening designs, aviation planning and design, and site development. His previous work experience includes both large and small scale projects, state and municipality roadway design, aviation, solid waste, residential and commercial site development. Mr. Modlin has experience and knowledge in schematic planning to detailed construction drawings. He has completed projects in nearly all parts of North Carolina, Virginia, Alabama, South Carolina, Florida, and Texas. His prior successes in most recent years include US 1 Bypass in Rockingham County, U-4006 preliminary design for Bridford Parkway Extension in Greensboro, and served as a project manager for six bridge replacement projects in Bladen, Hamatt, Cumberland, and Columbus Counties.

Richard Modlin, PE

A graduate from North Carolina State University, Jay Eaves, PE has more than 13 years experience in construction site work development. His previous work experience includes clearing, grading, erosion control, construction layout, storm and sanitary sewer systems, pavement structures, and storm water design. He has been in project management over both small and large scale projects in North and South Carolina. He joins CESI's management team as Construction Materials Testing Project Manager.

Jay Eaves, PE
