

**FOR IMMEDIATE RELEASE:**

***Two New Team Members Join CESI***

CESI (formerly Concord Engineering & Surveying, Inc.) welcomes two new members to the team: David Reese, PE (Civil Engineer Department Manager and CMT Project Manager), Tom Tasselli, LA (Landscape Architect).

David Reese, PE has over 20 years of experience in civil engineering and construction which will be a great benefit to our client's and firm. David's previous management and work experience includes overseeing engineering and design/build operations, storm water management, erosion control design and land development. David also has experience in structural engineering and building code compliance issues. David's experience and talent are notable in his project experience which includes Morland Industrial Park, Lowes Food Stores, BI-LO Grocery Stores, Barley Park Industrial Subdivision, Carolina Beer and Beverage, as well as various Walgreens, Eckerd, and CVS stores. A graduate from North Carolina State University, David earned a Bachelor of Science in both Civil Engineering and Construction. David also attained a contractor's license for work in heavy highway (grading), sanitary water line and sanitary sewer line construction.

Tom Tasselli, graduated from Virginia Polytechnic Institute and State University with a Bachelor degree in Landscape Architecture and Horticulture. Tom has over 25 years experience in Landscape Architecture and civil engineering with his past experience including preparing landscape plans and specifications, irrigation plans, illustrative plans and presentation drawings, preparing grading, erosion, and sediment control plans, design of storm drain systems, ESC plans, and BMP's. Tom also has extensive knowledge and experience in working with the NPDES Phase II permitting which makes him a valuable asset to our firm.
